

These licences govern the use of digital resources supplied by Super Alpine. By purchasing, downloading, installing or using a resource, you agree to the terms of the applicable licence.

Each licence applies only to the resource identified in its title. All rights not expressly granted are reserved by Super Alpine.

Digital Resource Licencing

1. Super Alpine Typeface Licence

Desktop Licence

Licence allowance: One computer.

1. Grant of Licence

This licence grants the licensee a non-exclusive, non-transferable right to install and use the Super Alpine typeface for the permitted purposes set out below. The licence covers use of the font software only. It does not transfer ownership or copyright.

All rights not expressly granted under this licence are reserved by Super Alpine.

2. Permitted Use

2.1 Desktop Use

The supplied OpenType (OTF) font file may be installed on one computer and used to create personal or commercial work, including print publications, logos, branding, artwork, advertising, packaging, social media assets, editorial projects and other static or rasterised design outputs.

Commercial use is permitted, including use in products for sale, provided the font software itself is not distributed or made available to third parties.

2.2 Internal Use

The licence is granted to the individual or organisation that purchases it. Employees and contractors may use the typeface solely for that licensee's projects, on the licensed computer and subject to the restrictions in this licence.

3. Restrictions

The licensee must not:

3.1 Copy, share, distribute, lend, sell, upload or otherwise make the font file available to any third party, whether in its original or modified form.

3.2 Sublicense, assign, donate, transfer or otherwise grant the font or this licence to another individual, organisation or entity.

3.3 Embed the font in software, applications, hardware, websites, SaaS platforms, server environments or other products or services in a way that permits third parties to access, extract or use the font software, unless an appropriate extended licence has been obtained from Super Alpine.

3.4 Convert, decompile, reverse engineer or modify the font software for redistribution, or create derivative font software intended for distribution.

3.5 Use the font in any unlawful, defamatory, discriminatory or otherwise harmful manner.

3.6 Use the font in a product or service that allows users to generate content using the font software itself, unless expressly authorised under a separate licence.

4. Backups and Storage

4.1 The licensee may retain one backup copy of the font file, stored securely and inaccessible to third parties.

4.2 The font file must not be stored in a shared location, cloud service or repository that permits access by unauthorised users.

4.3 The font may only be installed and used on the computer covered by the licence. Additional installations require an additional licence unless otherwise agreed in writing by Super Alpine.

5. Ownership and Intellectual Property

The typeface, font software, associated files and original design remain the intellectual property of Super Alpine or its respective rights holders. This licence grants usage rights only and transfers no ownership, copyright or other intellectual property rights to the licensee.

The licensee retains ownership of their own work created using the typeface, subject to the intellectual property rights in the typeface itself.

6. Liability and Indemnity

6.1 The font software is supplied as is, to the extent permitted by law. Super Alpine makes no warranties or representations, express or implied, regarding its suitability for a particular purpose, compatibility with specific systems or uninterrupted operation.

6.2 To the extent permitted by law, Super Alpine shall not be liable for indirect or consequential loss, loss of profits, loss of data, business interruption or other losses arising from the use of, or inability to use, the font software.

6.3 Nothing in this licence excludes or limits any liability or statutory rights that cannot lawfully be excluded or limited under applicable law.

6.4 The licensee is responsible for their use of the font and for ensuring that their work complies with applicable laws and third-party rights. To the extent permitted by law, the licensee agrees to indemnify Super Alpine against reasonable losses, damages, costs and expenses arising from the licensee's breach of this licence, unlawful use of the font or infringement of third-party rights through their use of the font.

7. Termination

This licence terminates automatically if the licensee materially breaches its terms. Where the breach is capable of remedy, Super Alpine may allow a reasonable period for the breach to be corrected.

Upon termination, the licensee must cease using the font and delete all copies under their control, including installed copies, backups and stored files, except where retention is required by law.

Termination does not affect any rights or remedies accrued before termination.

8. Governing Law

This licence is governed by the laws of England and Wales. The courts of England and Wales shall have jurisdiction over disputes arising from it, subject to any mandatory rights or protections that apply under law.
